QUEENSLAND

Situated generally between 10° and 29° south latitude and between 138° and 154° east longitude, Queensland occupies the north-eastern portion of the Australian continent. Of the six States of the Commonwealth, Queensland ranks second in area and third in population.

AREA	1,732,700 square kilometres (including islands), equivalent to more than seven times the area of the United Kingdom, three times the area of France or one-fifth of the area of USA
COASTLINE	9,800 kilometres (including islands), 7,400 kilometres on the mainland
CAPITAL CITY	Brisbane, situated 16 kilometres from the sea
TIME	Eastern Standard Time, 10 hours ahead of Greenwich Mean Time
1824	First European settlement
1859	Colony separated from New South Wales
1901	State of the Commonwealth of Australia

Queensland is a constituent State of the Commonwealth of Australia, observing the Federal Constitution, and, while returning elected members to both upper and lower houses of the Federal Parliament, is governed by its own State Parliament. A further level of government, local government, derives its powers from Acts passed by the State Parliament.

MEASURING AUSTRALIA'S ECONOMY

A Plain English guide to the 'tools of the trade' of economists. *Measuring Australia's Economy* is a comprehensive guide to the key economic indicators, written specifically with the non-economist in mind. Graphs, tables and basic explanatory text help you to understand how they are used to measure Australia's economic performance.

Measuring Australia's Economy includes the latest economic indicators developed by the ABS along with indicators from other organisations. Eleven international comparisons relate Australia's economic performance with that of other major countries and establish a world perspective.

Priced at only \$14.50, this is a book for anyone with a serious interest in understanding the Australian economy.
